

SINGLE USE PLASTIC (SUP) POLICY STATEMENT

FSC1 Limited has launched a campaign to reduce use of Single Use Plastic (SUP) whilst delivering our consultancy service. The starting point of the campaign is our own use of plastic.

What have we already done?

- Stopped using plastic straws and stirrers within the office.
- Installed a new mains fed chilled water unit within our office area, where staff can refill their bottles.
- Our landlord has removed its drinks machine and installed a mains fed chilled water unit with paper cups.
- Our offices no longer use or purchase plastic straws, instead we use paper straws.
- FSC1 Limited is no longer posting out flyers and documents to clients in plastic wrappers – instead recyclable paper envelopes are being used.
- Posters on display at our office stand are now printed on recyclable material.
- We have now installed two plastic recycling bins.
- We have switched to plastic free, biodegradable, products where applicable.

SUP Engagement Consultant

A member of our team spent six months (October-March 2019) working with Harouni Group and other businesses, providing tips on how they can reduce their own use of plastic. Overall, engaging with over 100 people!
